Synopsis of the New Management's Performance and Activities. (April 2009- March 2010)

Introduction

On assuming the office of the Jamaat, the new Management observed the need to update and streamline the existing administrative system of KPSIAJ. An informal need analysis was carried out to identify and assess the immediate needs of the institution. The purpose of the exercise was to bring the system up to date in order to improve its quality and performance. The data collected through the exercise will also prove helpful in identifying those areas which will need improvement and better management in future.

This issue aims to share/highlight some of the initiatives taken by the present Management to bring about a qualitative change, that will ensure smooth and efficient functioning of the Jamaat.

Upgradation of Software

A prompt and error free financial reporting is a pre requisite to evaluate the financial strength and status of an institution. A new Software was purchased and installed for which funds were donated by the members of the Managing Committee. Young and enthusiastic Managing Committee members having expertise in IT are working to introduce a paper free environment in the KPSIAJ set up in due course of time.

To protect important data from any undesirable eventuality, hardware has also been upgraded to fortify all the important details relating to accounts and membership. A complete backup utility is also installed to ensure that the data remains secure at all times.

Launch of KPSIAJ website

The ground work for the launch of the website is in its last phase. Soon, it will be made available to keep members informed of the Jamaat's activities. It will help to develop a participative relationship between the members and the management enabling both to play their role for the progress of the community.

Census 2009

The importance of a comprehensive database of the community for formulating long term plans, has been given a key place in the manifesto of the Elected Body. Upon assuming office, the management decided to initiate the project on a priority basis. By the grace of Allah and the committee's untiring efforts, the project was launched on 15th September 2009, on the day of Death Anniversary of Shaheed

Make yourself count.

Hameed Ali Bhojani as a tribute to the late visionary leader.

Our team of dedicated volunteers are engaged in the process of distribution and collection of the Census forms by making door to door visits. The process is encountering many challenges and the team is hopeful of overcoming these

in phases. We would like to request all community members to cooperate with our team-members engaged in the collection and compilation of data. The collection and compilation of the data through a newly procured comprehensive software will ensure availability and analysis of community statistics and pave the way for the formulation and designing of policies and plans, both short term and long term. A complete system of levels of accessibility has been incorporated in the software so as to ensure that the data collected remains confidential.

Indeed, the task cannot be accomplished without the cooperation of the community members. Apart from multiple advantages, the Jamaat intends to issue digitalized ID and Health Cards to each member of the family, in order to provide access to the Health and other facilities provided by the KPSIAJ.

Library and Reading Room

The importance of a well stocked library in promoting education, general awareness and developing reading habit cannot be denied. Having remained unused for some time, the Jamaat Library has now been refurbished and air-conditioned to facilitate users, particularly our students, to pursue their quest for knowledge in a pleasant environment. About 5000 titles

are available with regular additions every month. The library is now equipped with 2 computers to facilitate library users, and would be especially helpful to the students.

Library facility is available to members upon a nominal membership fee.

Sports Activities

Mental and physical fitness are interdependent. To promote healthy activities among the youth, the Sports sub committee is entrusted to undertake steps for engaging our youngsters in sports.

Jamaat also acquires the services of professional coaches on payment. Coaching classes are conducted from time to time for karate, table tennis, cricket and football. Indoor games are organized at the FEN premises while matches for

cricket and football are organized at various grounds in the city. The interest and participation of the youth in sporting events is growing rapidly.

A professional table tennis coach provided training to our boys aged 8 to 16 years during the Summer Camp. Badminton

courts have been developed in the open courtyards of the College buildings to facilitate our students. Fatimiyah College (Boys and Girls Campus) has been equipped with Gym equipments for students.

Human Resource Committee

Due to the slow down of the economy, the role of HRC has become increasingly vital in helping job seekers. HRC of Jamaat has geared itself up to meet the challenges of the task assigned to it.

In order to streamline the system, IT based software has been installed to record and process the applications. A seminar on career guidance and development was

conducted to apprise applicants of the professional skills and other necessary tools required for effective Presentation. The placements made by this committee upto December 2010 has been most

encouraging. So far, 150 applications have been received out of which by the grace of Almighty Allah, and proactive efforts by the committee members, 64 applicants have been successfully placed in various positions and many are in the process of test and interviews.

All avenues are being explored to reach the prospective employers. Response from Community, business houses and banks has been very positive. The support being provided by the senior members of the Managing Committee is highly commendable. HRC is confident, that with the continued support of the Community, there will be a sizeable enhancement in the number of placements.

HRC Seminar

A seminar titled "Towards a Winning Career" (How to get the job you really want) was organized by the members of the Human Resource Committee KPSIAJ, on 8th August 2009 at Fatimiyah – ECE Auditorium. The objective of the Seminar was to educate and help the youth to prepare their portfolios. Representatives of Pakistan's leading organizations like Barclays Bank PLC Pakistan, Glaxo Simthkline Ltd, Pakistan and Reckett Benckiser Ltd, Pakistan addressed the participants on the following topics:

- What the Employers look for in Candidates' today.
- Writing the perfect CV.
- Preparing for an Employment Interview.

The seminar concluded with a Q/A session.

Possession of newly acquired plot

Possession of the plot adjacent to Bhojani Hall measuring 2000 sq. yards has been acquired after completion of all the formalities and the title now stands in the name of KPSIAJ. A ceremony to mark the occasion was held on 10th Oct 2009. It was attended by Donors, Vendors, members of Resource Mobilization Sub-Committee, and members of the Managing Committee. The President and the Honorary General

Secretary of the Jamaat signed the documents.

The previous management committee had signed an agreement of purchase and made about 50% of the payment. We express our deep gratitude to the donors who fulfilled their pledge, enabling us to execute the sale deed and obtain the possession of the plot. This plot will be used for further expansion of the Fatimiyah Education Network.

Expansion of Fatimiyah Hospital

A remarkable improvement has been witnessed in the performance of Fatimiyah Hospital during the recent months. The Management of the hospital has won the

confidence of patients and their families through improvement in the services and facilities.

It is note worthy that the capacity of the hospital has been increased from 43 beds to 65 beds, by merely adjusting the available space for optimum utilization. The General Wards have been air-conditioned to provide all patients (without discrimination) the best possible treatment at affordable costs. Number of OPD Clinics have also been increased to enhance Specialists' Consultancy.

Donation Box Sub Committee

The project was introduced by Shaheed Hamid Ali Bhojani. It has proved vital for generating funds for the promotion of Education. The project was given due attention since the start of the tenure. The committee took up the task zealously and through its efforts enhanced the number

of donors from 850 to 1000. Efforts are continuing to raise it to 1500 in the coming months, to meet the growing cost of educational expenses. New Software has been purchased to replace the conventional system of maintaining the records manually.

We thank all the community members for their encouraging response to our efforts, and request them to further enhance their participation in the noble cause of educating and training the community.

The Event Managing Committee

The committee is assigned with the task of organizing programs on different occasions. Such programs do not only impart valuable knowledge; but also provide an opportunity for both the community members and the management, to assemble and interact with each other to promote better communication.

Some of the programs organised by the committee:

Pursuit of Academic Excellence at FEN

At FEN, plans to achieve holistic objectives of education are constantly reviewed to ensure that the system operates at a high performance level to deliver worthy education.

1. Value Orientation Program

launched in the month of July 2009, in which 20 classes were conducted for the entire faculty of FEN, with subsequent periodic sessions planned throughout the year.

2. Curriculum Screening & Enrichment

A Curriculum Screening Program has been initiated to screen, and enrich, all text materials for all classes. The underlying purpose is to identify 'implicit messages'

if any (between the lines), transmitted by certain publishers or text materials, which tend to distort the child's value system, and his understanding of our core beliefs. Under this program, subject concepts are re enforced with value and direction, or dilutions, as applicable, by a competent Ideological Resource (IR).
